Logo Introduction

The Procare HR logo combines three core elements: the Procare HR logotype, the tagline, and the “C Heart” icon as a graphical element. These components form a single, unified mark and must never be altered.

The position, size, color, and proportional relationships of these elements are predetermined and must remain consistent across all applications. When used correctly, the logo reinforces recognition and strengthens the Procare HR brand.

Minimum Size

To ensure legibility and brand recognition, the Procare HR logo must not be displayed smaller than the following dimensions:

- Print: Minimum width of 1 inch (25 mm)
- Digital: Minimum width of 100 pixels

Using the logo below these sizes may compromise readability and reduce the visual impact of the brand. Always scale the logo proportionally and maintain the required clear space around it.

Logo Margins

To maintain legibility and visual impact, always preserve sufficient clear space around the Procare HR logo. This ensures the logo remains distinct and uncluttered by other visual elements such as text, images, or borders.

The minimum required margin around the logo is equal to the length of the letter “r” in the Procare HR logotype. This measurement should be applied on all sides of the logo as the minimum clear space.

No other graphic elements, typography, or edges should encroach upon this protected area. Maintaining this margin ensures the logo retains its integrity and prominence in every application.
